ISACA NL Chapter november 2022

Dear members,

As a new interim board member for ISACA Netherlands first of all I would like to invite you to join us for a very insightful and exciting event on 16th of November: the Risk Event 'The GREAT Risk Reset', which I assure you will 'reset' your way of understanding, reporting and perceiving Digital Risk.

The event will have local as well as international speakers and will take place at Spant!, in the lovely city of Bussum.

You can still register, please do so via the link below.

Register for the Risk Event

ISACA Europe Conference

This fall I attended the ISACA Strategic Advisory Council with our president, Dwayne Valkenburg. We gained multiple exciting insights, on the ISACA global strategy. Also we helped to formulate the [Digital Trust Ecosystem Framework](#) future, by contributing through discussions, brainstorming and knowledge sharing of our understanding of the initiative and the preliminary version of the Framework. We also met the ISACA CEO, David Samuelson for a friendly discussion. He gave a special compliment regarding the Chapter's success, which is of course aimed at all members due to their efforts.

Sharing knowledge

We also had multiple alignment meetings with other chapters across Europe to expand the reach of Square Tables, attracting new speakers from across different countries and also providing access to our Square Tables to other chapters across Europe. Success within any community is based on knowledge sharing and also being exposed to different challenges and lessons learnt by other chapters and members.

We know that it has been a while since we gathered at a Round Table, for the moment, we are looking at a new exciting organization to have those Round Tables back with more value & exciting surprises. Stay tuned for an update soon!

Last but not least, we all know that it's time for newer technologies that are heavily adopted especially due to COVID19 pandemic to be 'audited', to ensure compliance and security.

Thus ISACA Netherlands Chapter has taken the opportunity to offer a new training for one of the latest certifications of ISACA, Certificate of Cloud Auditing Knowledge (CCAK). You can register via the link below.

Looking forward to see you on our next Square Table,

Stay Tuned,

Ramzy Elmasry - Interim Board Member & Chairman of ISACA Netherlands SquareTables commitee

PE: 4 punten per deelgenomen trainingsavond

CCAK™

ISACA.
Netherlands Chapter

Het Certificate of Cloud Auditing Knowledge (CCAK) is het eerste certificaat gericht op de essentiële principes van het controleren van cloud-applicaties. CCAK is een resultaat van een samenwerking tussen de Cloud Security Alliance en ISACA.

Vanaf 30 november bieden wij een CCAK-training aan ter voorbereiding op het examen, verzorgd door expert docent Peter HJ van Eijk.

Inschrijven CCAK-training

Save the date: 12 december 2022

Algemene ledenvergadering ISACA NL Chapter (ALV)

(Uitnodiging volgt binnenkort)

Watch our webinars on YouTube

Hacking Hospitals

Rewatch our webinar 'Hacking Hospitals' with expert [Willem Westerhof](). During this webinar you will be guided along an attacker's perspective on hacking hospitals. Anonymized cases will be used to illustrate the current state of things in the healthcare sector.
