

ISACA NL Chapter oktober 2022

Dear members,

We have a lot in store for you for October and November. Not only is the Risk Event Committee organizing the [Risk Event 2022](#) on the 16th of November. Also our committee has put together an interesting program of Round Tables and webinars for the fall.

On the 5th of October we are kicking off with the first Round Table for a long time at Van der Valk Hotel in Breukelen. [Floor Terra](#) will tell you all about '[Encryption for cloud services as a protection against international transfers](#)'.

During our [Round Table on the 19th of October](#) [Jeroen Duijsens](#) and [Erik van der Heijden](#) from Expertisecentrum Cyberweerbaarheid Limburg will dive into security within small and medium-sized enterprises.

All our Round Tables offer opportunities for networking and of course, drinks and finger food will be made available. We definitely hope to see you there. Please register via the links in this message or below!

Kind regards,

Nico van Rooijen

Committee Round and Square Tables

The event poster features a red background with a repeating pattern of white circular icons. On the right side, there is a photograph of a large, modern event space with a stage and audience seating. The text 'RISKEVENT'22' is written in large, white, bold letters, with 'The GREAT 'Risk' Reset' below it in a smaller, white font.

RISKEVENT'22

The GREAT 'Risk' Reset

November 16, 2022
08:00 - 18:00
CPE: 6 point

The ISACA logo is displayed in white, consisting of a stylized 'C' symbol above the text 'ISACA' and 'Netherlands Chapter' below it.

Netherlands Chapter

Risk Event 2022 - The Great 'Risk' Reset

Schrijf je nu in voor het aankomende Risk Event van ISACA NL Chapter 'The Great Risk Reset'. Met diverse sprekers waaronder [Etay Maor](#), [Piet Bel](#), [Egge van der Poel](#) en vele anderen!

Het congres staat in het teken van de hedendaagse risico's waar organisaties mee geconfronteerd worden, als gevolg van maatschappelijke ontwikkelingen zoals corona, verdergaande digitalisering en klimaatverandering.

Ook is er aandacht voor thema's die naar verwachting steeds meer impact op ons werk en leven zullen gaan hebben, zoals het steeds breder beschikbaar zijn van aanvalstechnieken, robotisering en deepfakes.

Watch our webinars on YouTube

A screenshot of a webinar presentation. The slide title is "Schrems II compliance | 20th September 2022". The main heading is "Technical requirements". A sub-heading is "4 Everything as code". Below this, there is a list of four bullet points, each with a checkmark: "All resources deployed using code as configuration and IaC tools.", "Audit traces available for the code, configuration, control, and the security access.", "Infrastructure and application configuration is described and treated like application code.", "Access to code repositories secured with IAM controls.", "Repositories periodically scanned for leaked secrets. Including public repositories such as GitHub." A large red play button icon is overlaid on the slide. On the right side of the screenshot, there is a video feed of a man with glasses and a light blue shirt, and a grid of participant avatars with initials like EB, FH, MV, RB, AP, HW, RA, HD, KL, PW, and +12.

Journey towards Schrems II compliance

Rewatch our webinar wherein [Federico Casano](#), Senior Cybersecurity Consultant at ABN AMRO Bank N.V, discusses the challenges organizations are facing caused by Schrems II. Federico also provides steps companies could take, in cooperation with the major cloud providers, in their journey towards Schrems II compliance.
