

ISACA NL Chapter maart 2023

Beste ISACA NL-leden,

In trainingenland is niets meer normaal. Er blijven veel trainingen online gaan, want het gemak van niet-reizen is voor een aantal mensen belangrijker dan live een training volgen. Ook andersom merk ik: mensen willen weer live. Dus het is moeilijker om het iedereen naar de zin te maken.

Als chapter organiseren wij de [trainingen](#) dit voorjaar in principe op locatie. Maar mocht blijken dat dit niet werkt, dan zullen we online heroverwegen. De trainingen worden verder in het Nederlands verzorgd. Maar hier zit ook een tenzij aan, hoewel het nog niet is voorgekomen. Voor de zelfstarters is er ten slotte een Engelse online C*** training op de [website van ISACA Global](#).

We werken met geaccrediteerde trainers, maar dat loopt soms niet helemaal vloeïend. Zo hebben we helaas de ISO27701-training voor dit voorjaar moeten uitstellen, omdat er in Canada te laat actie kwam voor het accrediteren van onze trainer.

De CDPSE komt er aan, we hebben een trainer, nu nog het accreditatietraject in en door. Zo blijven we in beweging, voor u als lid. Nog vragen of behoeften: Trainingen@isaca.nl.

Groet,

Erik van Eeden

Bestuurslid ISACA NL Chapter

ISACA NL CHAPTER APPRECIATION DAY

Date: 13th of March 2023

Time: 2 pm - 8 pm (drinks afterwards)

Location: Breukelen (Netherlands)

Dear members,

To show our appreciation towards all active members, we herewith invite you to join us on our Appreciation Day on the 13th of March. There are still some tickets available, so [register](#) now!

During this event trends and insights related to Digital Trust will be shared by speakers that are joining us from the US. [Mark Thomas](#) (Escoute & ISACA Phoenix) will provide in depth knowledge on Digital Trust and COBIT. [Safia Kazi](#) (ISACA Global) will tell you all about Digital Trust and Privacy.

Start: 2 pm

Location: Breukelen

Drinks, snacks and dinner are included.

Are you interested in becoming a volunteer for our Dutch chapter? Please join us on the 13th, so we can get acquainted. Also please join if you are just looking for a moment to (re-)connect with our chapter.

Your attendance is greatly appreciated!

The ISACA NL Board

[Attend our Appreciation Day \(3 CPE\)](#)

We'd like to hear your feedback

The board of ISACA NL Chapter would like to know how you experience our association. We therefore invite you to complete our short questionnaire. This will take approximately 2 minutes. We will use your feedback to improve our activities. Your response is greatly appreciated.

Square Table, 8th of March 2023

Resurrecting After A Ransomware Attack

With cybercrime on the rise, (ransomware) attacks that target Active Directory (AD) are almost as common as having a cup of coffee.

In our Square Table on the 8th of March [Jorge de Almeida Pinto](#) will discuss key considerations and different options to develop an AD DR plan. A real world cyberattack scenario will also be discussed.

What you'll learn:

- How to proactively secure and protect AD from cyberattacks.
- Why the ability to recover AD in a cyberattack scenario is a must-have for organizations.
- AD cyberattack scenarios to address, including multiple (or entire) domain controller outages and irreversible malicious changes.
- Points to consider when developing an AD DR plan.
- How to automate AD recovery to save time during a cyber incident and accelerate recovery of business operations

[Register \(earn 1 CPE by attending\)](#)

Square Table, 5th of April 2023

How to present Cybersecurity to the Board

Join us for our webinar on the 5th of April 2023 wherein Attorney-at-Law and founder of ClearOps [Caroline McCaffery](#) will tell you how to present your cybersecurity plans to the board of directors.

Round Table Eindhoven, 12th of April 2023

Stakeholder engagement: tools & methods

In order to achieve an appropriate information security policy one should approach information security from a company context, according to the ISO27001 standard. A stakeholder approach is thereby important, but in practice our profession is not putting much focus on stakeholder analysis.

With the new version of the ISO27001 standard even more emphasis is placed on stakeholder involvement. Therefore, for our next Round Table on the 12th of April 2023 at Van der Valk Eindhoven, we have invited a specialist from a workfield where stakeholder analysis is much more prominently used than in the security field.

In this Round Table [Dr. Annemarie van Zeijl-Rozema](#), Associate Professor in Sustainability Science at Maastricht University, will share with us some insights, tools and methods for stakeholder engagement. There will also be an opportunity to experience some tools first hand.
