Round Table Eindhoven January 17, 2024

## Behind the scenes of the ISO certificate

In our field, aspiring, obtaining and maintaining certification is common practice. Behind a certificate lies a whole world of accreditation. What does that world look like and what is the added value of accreditation for a certificate holder? During this Round Table, this world behind a certificate will be made clear.

The presentation is given in Dutch (and English) by [Jos Maas](#). He is, among other things, a technical assessor for the Accreditation Council and has gained a lot of experience in supporting organizations in the implementation of standards and obtaining certification from various organizations.

Location: Van der Valk Eindhoven

Time: 18:00 - 21:00 pm

# Practical Tips for Cyber Risk in 2024

How will cyber risk change in 2024? Are you struggling to juggle day-to-day duties while planning for the future? You're not alone. Join this session with [Alex Wells](#) to learn what security analysts on the ground are predicting knowledge how to prepare your organization.

Gain unique insight from Hadrian's in-house hacker team and gain actionable advice to share with your organization. In this webinar you will also learn why it is necessary to shift from a reactive strategy to a proactive approach, and how you can begin this journey. No technical knowledge is required to attend the session.

Key topics:

- How cyber risk changed in 2023
- What Security Analysts predict for 2024
- How you can prepare for the coming year

Register (1 CPE)

## Schrijf je in voor onze trainingen

[scroll down for English] Dit voorjaar organiseert ISACA NL Chapter weer diverse trainingen ter voorbereiding op de certificeringsexamens. Start het nieuwe jaar goed en schrijf je direct in via deze links:

## Mastering Enterprise Risk Management: A holistic approach for success

By Albert Katoen - Organizations face a myriad of privacy and cyber security risks that can have far-reaching consequences. These risk differ per department and function. To prevent multiple risk management approaches, the adoption of Enterprise Risk

Management (ERM) is strongly advocated.

## Succesfactoren voor DevSecOps in agile software development

Authors: Mirna Bognar, Nico Kaag, Susan Schaeffer - Zeggen dat DevSecOps zijn passie is gaat Nico Kaag te ver. Maar hij zou wel graag zien dat security een vast onderdeel wordt bij (agile)

softwareontwikkeling. In de praktijk ziet Nico namelijk nog vaak dat softwareontwikkelaars uitstekend software kunnen ontwikkelen, maar onvoldoende aandacht hebben voor security.
