COBIT

Erik van Eeden

Erik van Eeden

Sinds 1982 al werkzaam in de IT en per stap steeds dichterbij de klantzijde aan. Dit is mijn aansluiting naar Governance.

Het trainingsvak ben ik naast mijn werkzaamheden gaan doen en is inmiddels integraal gecombineerd met consultancy. Dit is ook de reden dat ik werd gevraagd om toe te treden tot het bestuur van ISACA Nederland met als doel om Governance en trainingen met elkaar te verbinden.

Governance is de gewaarwording die ik overal ter wereld in opgang zie. Voor ISACA is het belangrijk om dit uit te stralen en hier een belangrijke rol in te spelen.

Kwaliteit wil ik uitstralen, de middelste twee letters van mijn voornaam geven dit al aan.

In mijn werk als consultant en trainer pak ik graag veel dingen aan en wil ik mensen en bedrijven graag verder helpen. Het netwerk om mij heen geeft mij veel mogelijkheden.

Privé ben ik trotse opa, door joggen blijf ik lichamelijk en geestelijk in balans.

Binnen het bestuur ben ik het aanspreekpunt voor trainingen, waarbij we op zoek zijn naar meer netwerk en draagvlak. Graag kom ik met u in contact via trainingen@isaca.nl.

De bestuursleden van ISACA Nederland zijn veelzijdig en enthousiast. Ik ben ervan overtuigd dat we met elkaar een goede uitwerking gaan geven aan de nieuwe strategie.

COBIT® 5
AN ISACA® FRAMEWORK

00018688

COBIT5

- COBIT5 =

Organizations Concern

Auditor's Concerns

- Inadequate view of IT functioning
- Operational failures of IT
- Increase in number security incidents
- High dependency of Businesses on IT
- Too many IT Standards & Frameworks
- Lack of knowledge of critical systems
- IT not meeting compliance

CIO's Priorities

- Delivering projects to meet business growth
- Demonstrating value to business
- Tightening security and privacy controls
- Improving business continuity readiness
- Improving quality of IT service delivery
- Applying metrics to IS organization and services
- Demonstration of Compliance
- Too many Audits (Internal / External)

GEIT

BUSINESS OUTCOMES OF GOVERNANCE OF ENTERPRISE IT (GEIT)

COBIT® beantwoord belangrijke bedrijfsvragen

Is mijn informatie technologie
organisatie de juiste dingen aan het doen?

Doen we de dingen op de juiste manier?

Krijgen we de dingen voor elkaar?

Zien we de resultaten wel goed?

* Based on the "Four Ares" as described by John Thorp in his book *The Information Paradox*, written jointly with Fujitsu, first published in 1998 and revised in 2003

Leunen op IT

COBIT[®] Business voordelen

- COBIT[®] geeft inzicht aan executive management om governance uit te voeren over de IT in het bedrijf
- Effectievere wegen om de IT de bedrijfsdoelen te laten ondersteunen
- Meer transparantie en voorspelbare IT kosten over de hele life-cycle
- Meer informatie over IT die betrouwbaar en op tijd is
 - Hogere kwaliteit uit IT services en meer succesvolle projecten
- Effectiever management van IT-gerelateerde risico's

Stakeholder Value

- Delivering enterprise stakeholder value requires good **governance and management** of information and technology (IT) assets.
- Enterprise boards, executives and management have to **embrace IT** like any other significant part of the business.
- External **legal, regulatory and contractual compliance** requirements related to enterprise use of information and technology are increasing, threatening value if breached.
- **COBIT 5 provides a comprehensive framework that assists enterprises to achieve their goals and deliver value through effective governance and management of enterprise IT**

How many controls are enough?

Assessor trainingen

The Evolution of COBIT 5

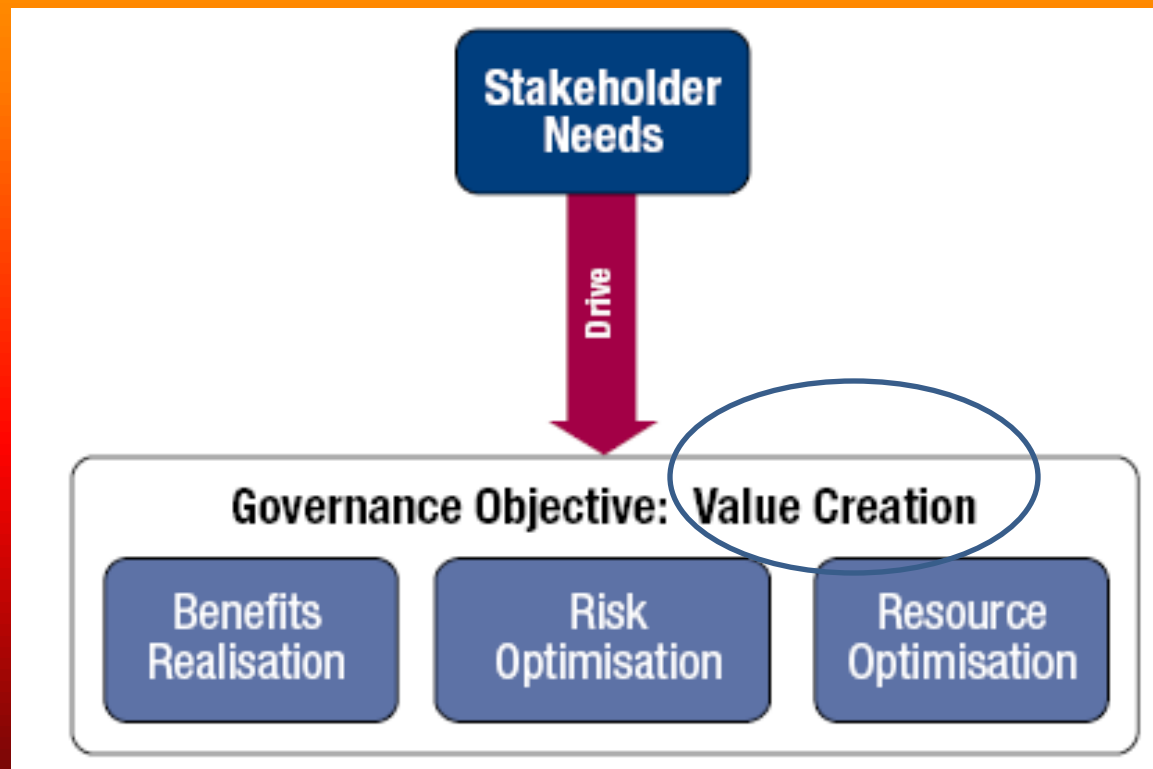

14

Meeting Stakeholder Needs

Principle 1. Meeting Stakeholder Needs

- Enterprises exist to create value for their stakeholders

BRR

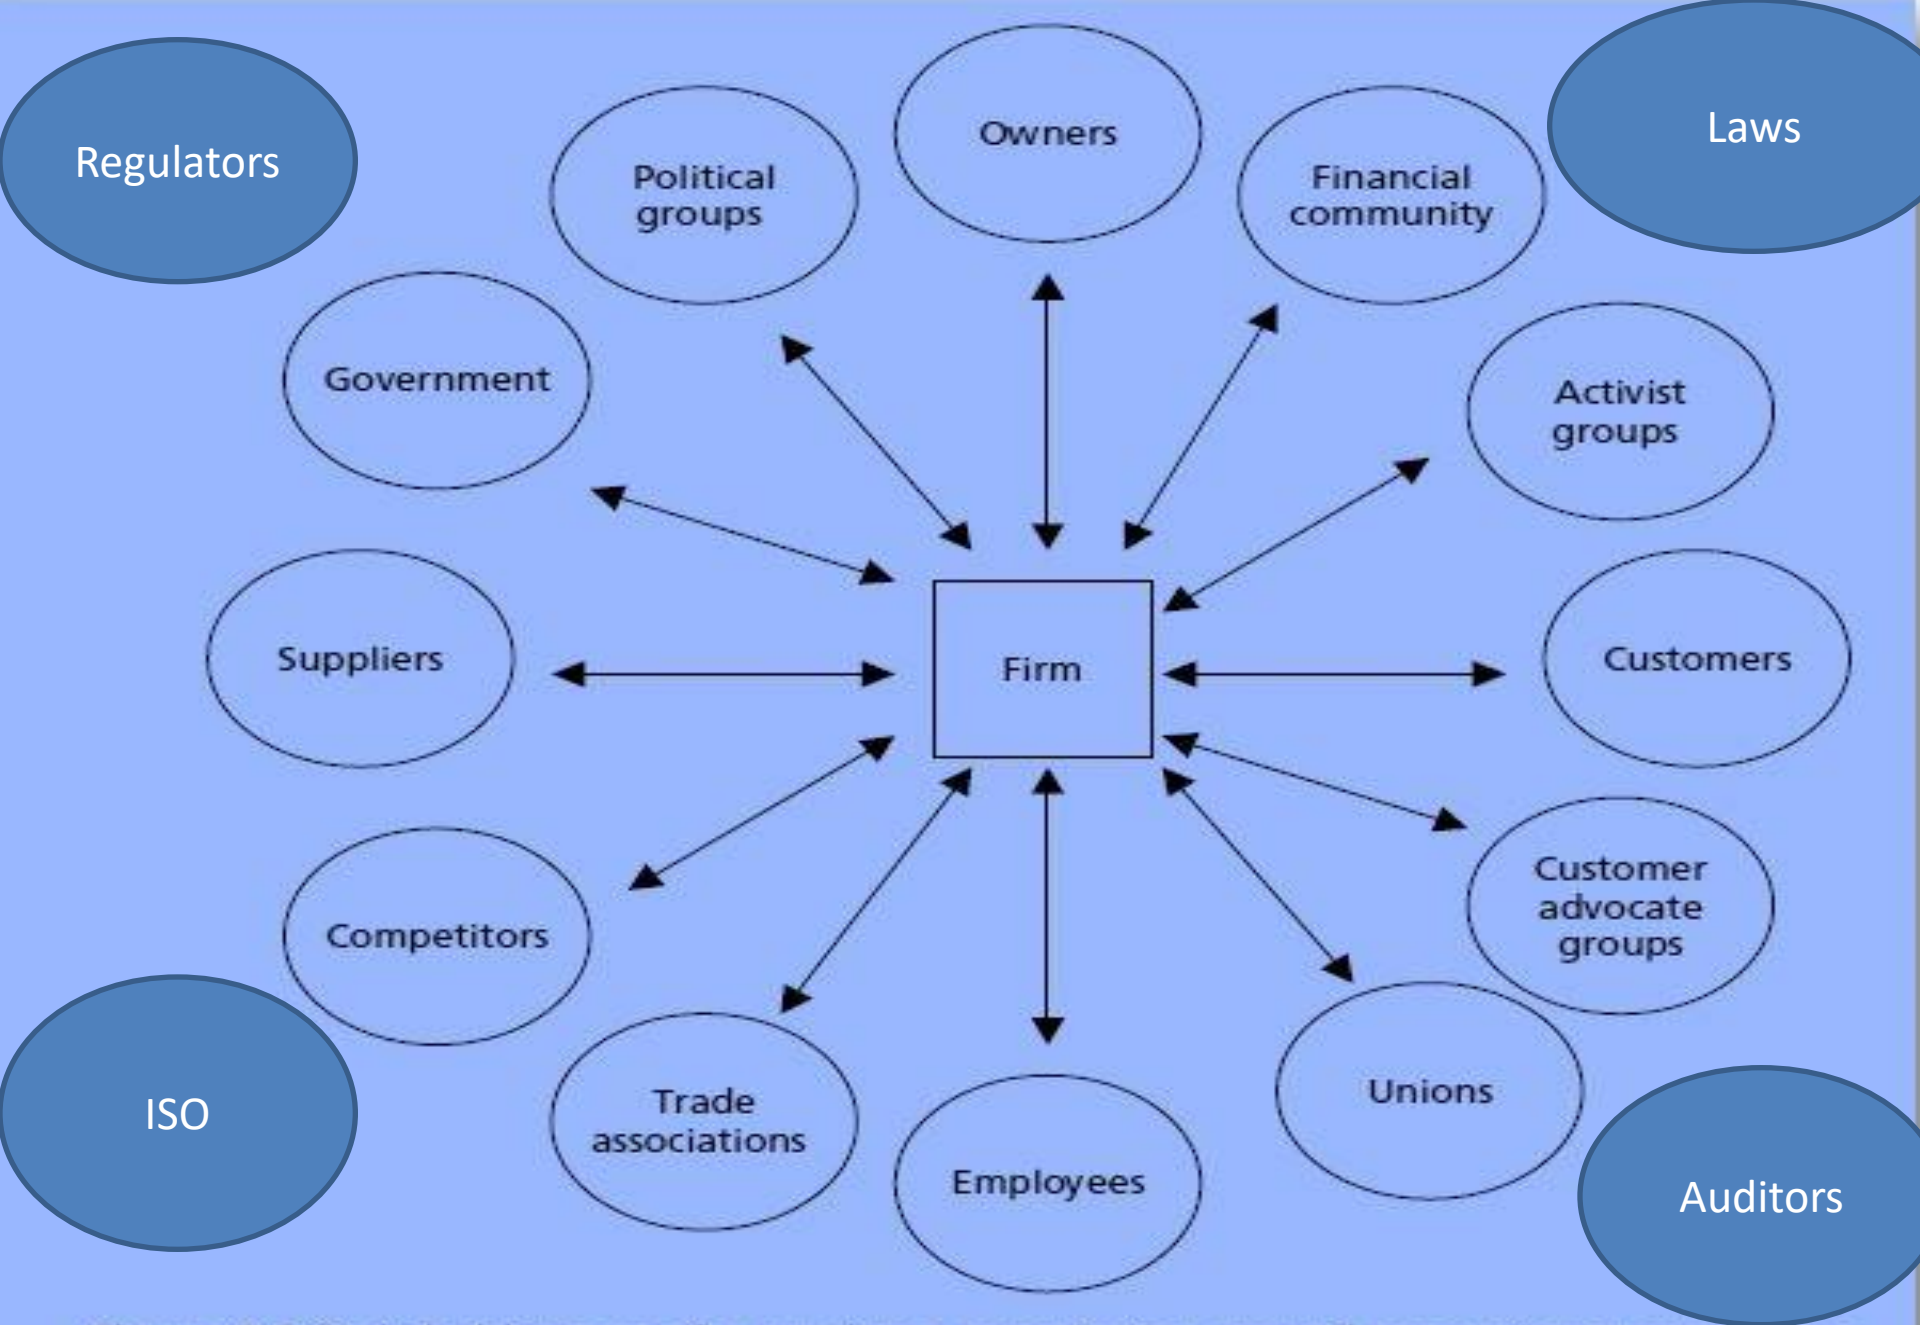

Figure 2.2 Stakeholder map of a very large organization around one major strategic issue
Source: Freeman (1984: 55).

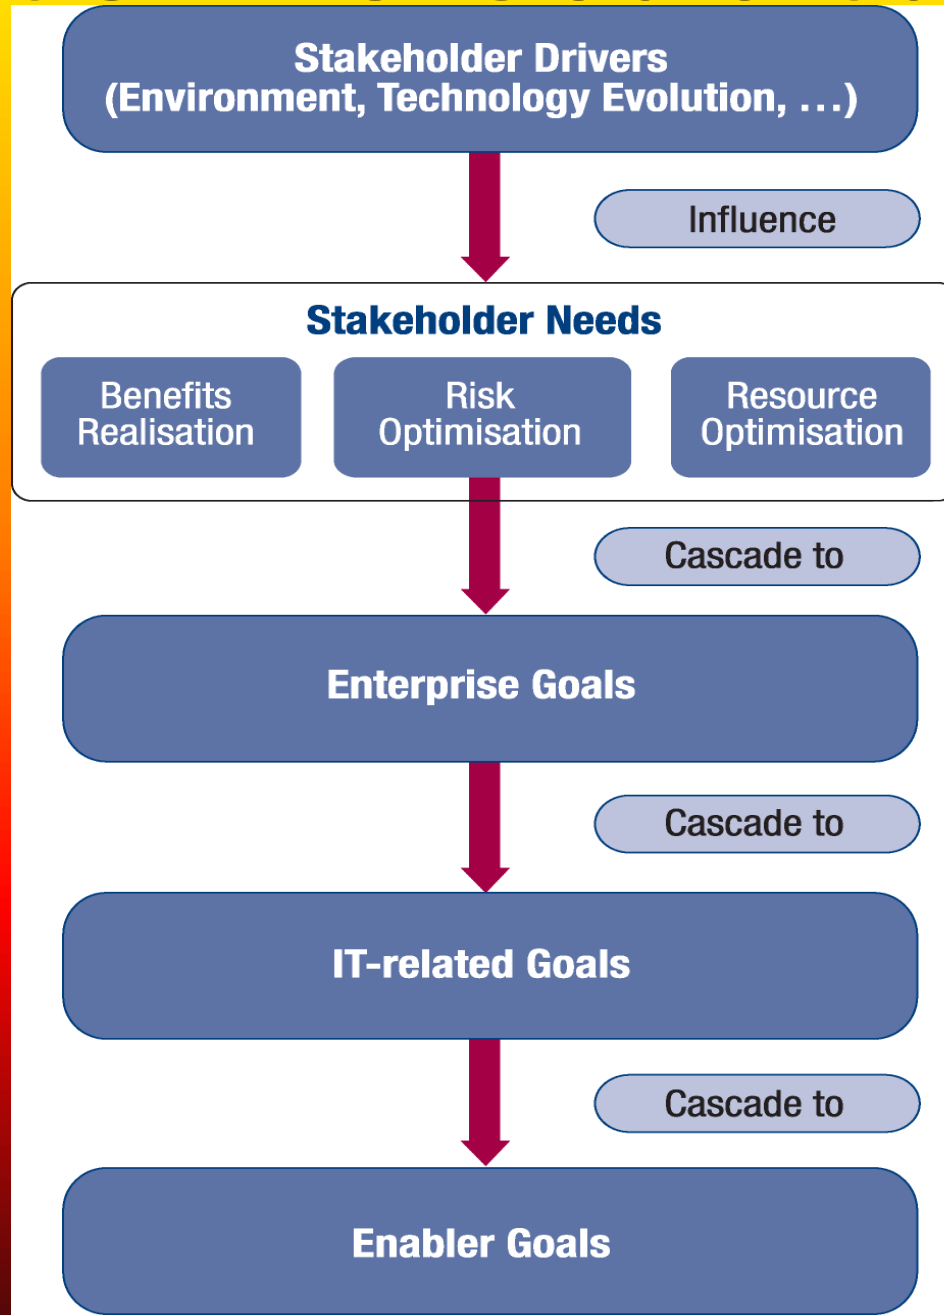

Waar begint COBIT5 ?

- EERST moet een bedrijf zijn doelen gesteld hebben
- Hoe bemoeit COBIT zich niet mee
- SWOT, COSO, BSC, ERM, DMW, JFW
- Stakeholder analyse !
- → Doelen
- En dan ... Governance, supported by COBIT5

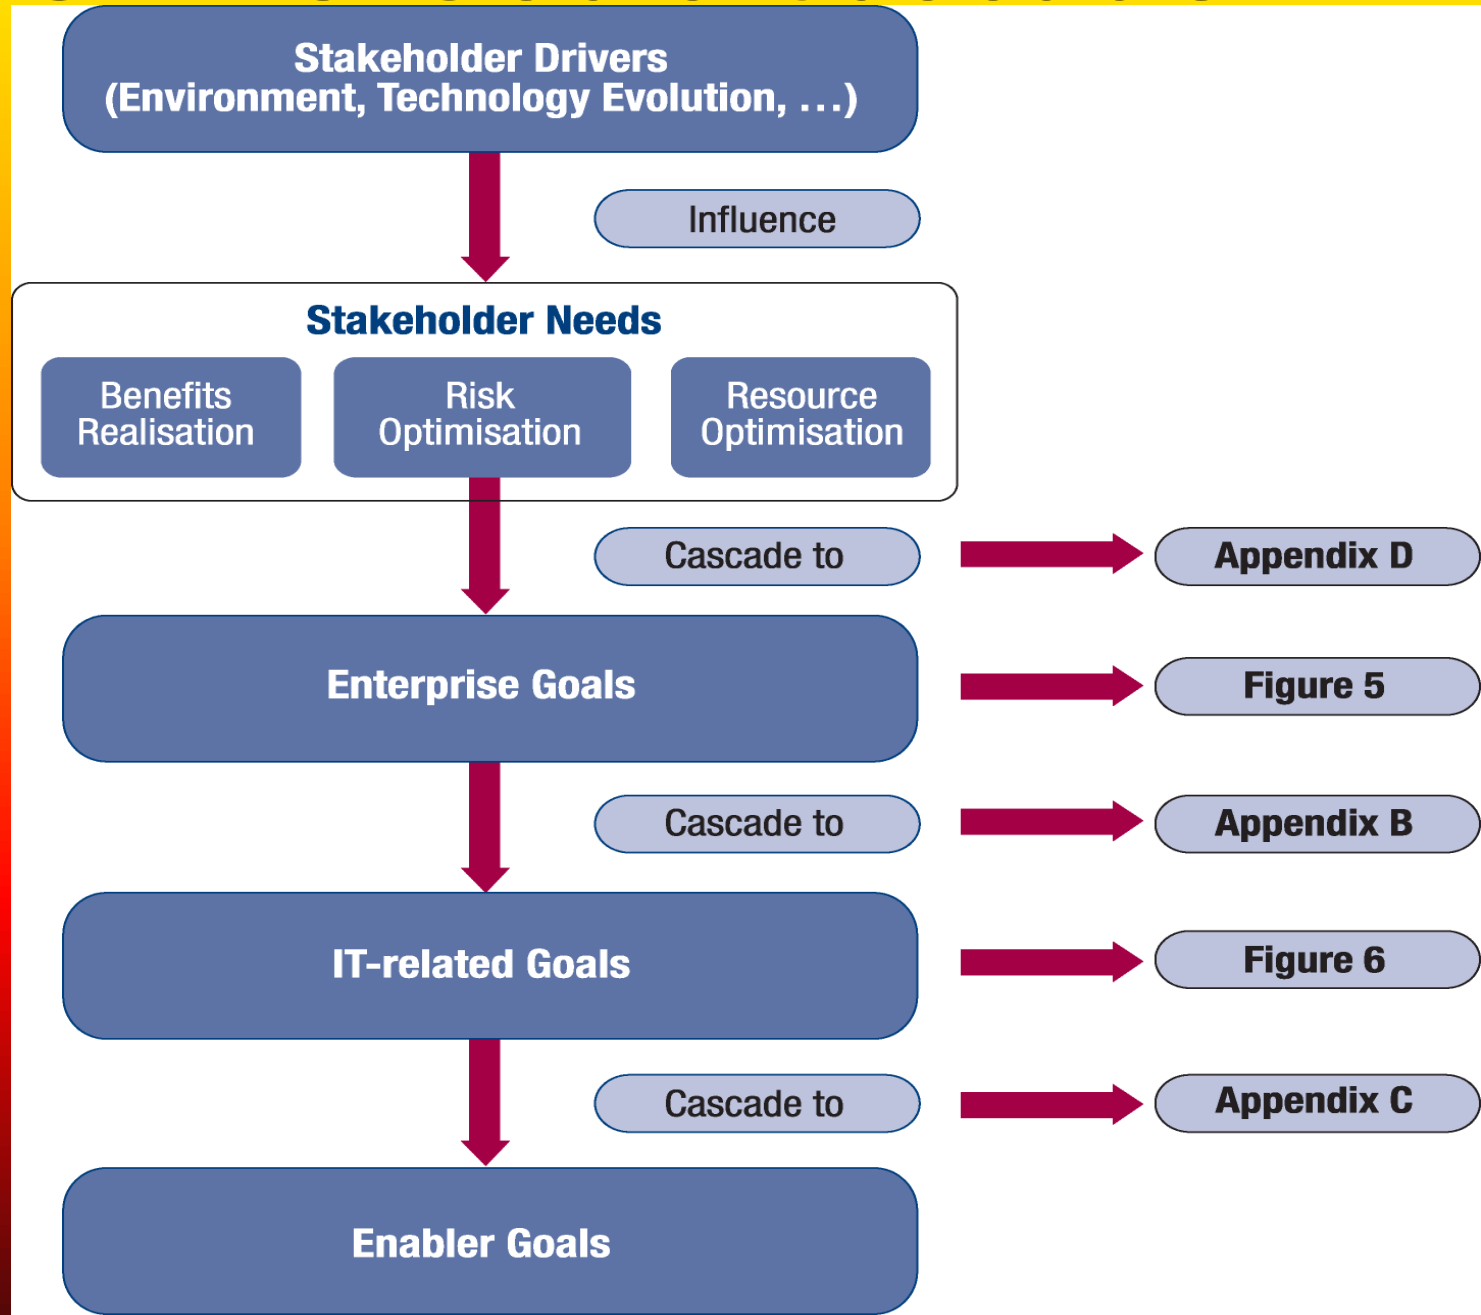

Daar begint COBIT5 !

- Uw bedrijf heeft zijn doelen gesteld en wil ze goed in beeld houden
- Doelen zijn altijd in beweging...
- Regelmatige Stakeholder analyse !
- Vertaling van Stakeholder needs naar Doelen naar IT gerelateerde doelen en naar Enabling doelen en weer terug en dat is Governance, supported by COBIT5 !

COBIT5 Goals Cascade

COBIT5 Goals Cascade +

Start met de BSC categorie in stap 1

Balanced Scorecard	Enterprise Goals	IT Related Goal (ITRG)	COBIT Process
Financial			
Customer			
Internal			
Learning			

Customer	
	6. Customer-oriented service culture
	7. Business service continuity and availability
	8. Agile responses to a changing business environment
	9. Information-based strategic decision making
	10. Optimisation of service delivery costs

[illegible][illegible]

Cascade stap 1 Figure5: BSC dimensies en Enterprise Goals plotten op BRR

DSS04 Manage Continuity	P

Enterprise Goals To IT Related Goals

There are also 17 generic IT related goals as shown in Figure 6 (shown below) that are also categorised into the Balanced Score Card (BSC) categories. The relationship of enterprise goals to IT related Goals are shown in Appendix B Figure 22 page 50

Figure 6—IT-related Goals

IT BSC Dimension	Information and Related Technology Goal	
Financial	01	Alignment of IT and business strategy
	02	IT compliance and support for business compliance with external laws and regulations
	03	Commitment of executive management for making IT-related decisions
	04	Managed IT-related business risk
	05	Realised benefits from IT-enabled investments and services portfolio
	06	Transparency of IT costs, benefits and risk
Customer	07	Delivery of IT services in line with business requirements
	08	Adequate use of applications, information and technology solutions
Internal	09	IT agility
	10	Security of information, processing infrastructure and applications
	11	Optimisation of IT assets, resources and capabilities
	12	Enablement and support of business processes by integrating applications and technology into business processes
	13	Delivery of programmes delivering benefits, on time, on budget, and meeting requirements and quality standards
	14	Availability of reliable and useful information for decision making
	15	IT compliance with internal policies
Learning and Growth	16	Competent and motivated business and IT personnel
	17	Knowledge, expertise and initiatives for business innovation

Step .3

Example APO09 – Examine Metrics

Process ID	APO09	
Process Name	Manage Service Agreements	
Process Description	Align IT-enabled services and service levels with enterprise needs and expectations, including identification, specification, design, publishing, agreement, and monitoring of IT services, service levels and performance indicators.	
Process Purpose	Ensure that IT services and service levels meet current and future enterprise needs.	
Outcomes (OS)		
Number	Description	RELATED METRICS
APO09-O1	IT services are identified, defined and catalogued according to enterprise needs.	The number of business processes with unidentified service agreements
APO09-O2	Service agreements reflect enterprise needs and the capabilities of IT.	% of live IT services covered by service Agreements
APO09-O3	IT services perform as stipulated in service agreements.	% of Customers satisfied that service delivery meets agreed-on levels
		Number & severity of service breaches
		% of services being monitored to service levels
		% of service targets being met

Processes for Management of Enterprise IT

The COBIT5 Enterprise Enablers

COBIT 5 Implementation Life Cycle

My view on Governance

Of Enterprise IT with COBIT5

- Manage before you can Govern
- Controls are needed
- Stakeholders must be involved
- IT helps the enterprise
- Organizations are helped to find out what they really want

Operations

afterthought

“All Models are wrong,
but some are useful”

George Box
