## Career Counseling Advice in the New Economy

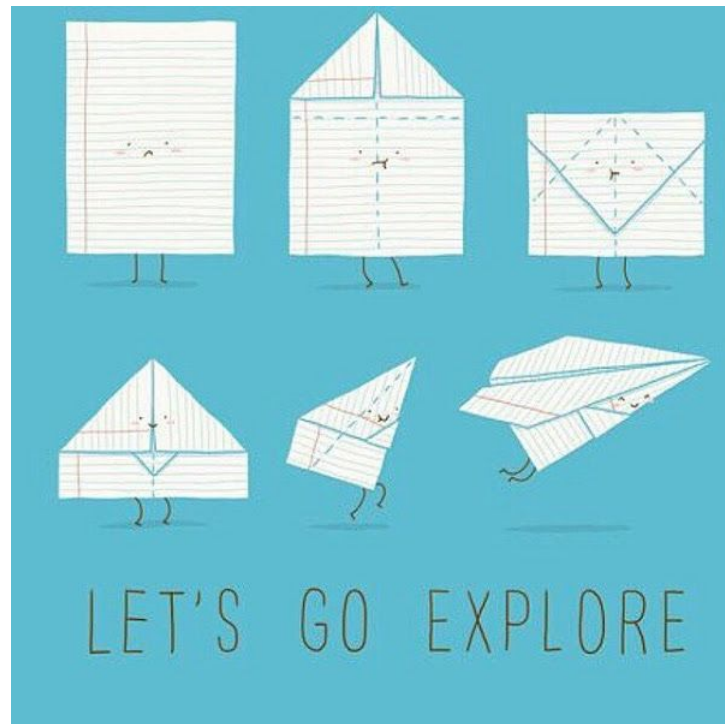

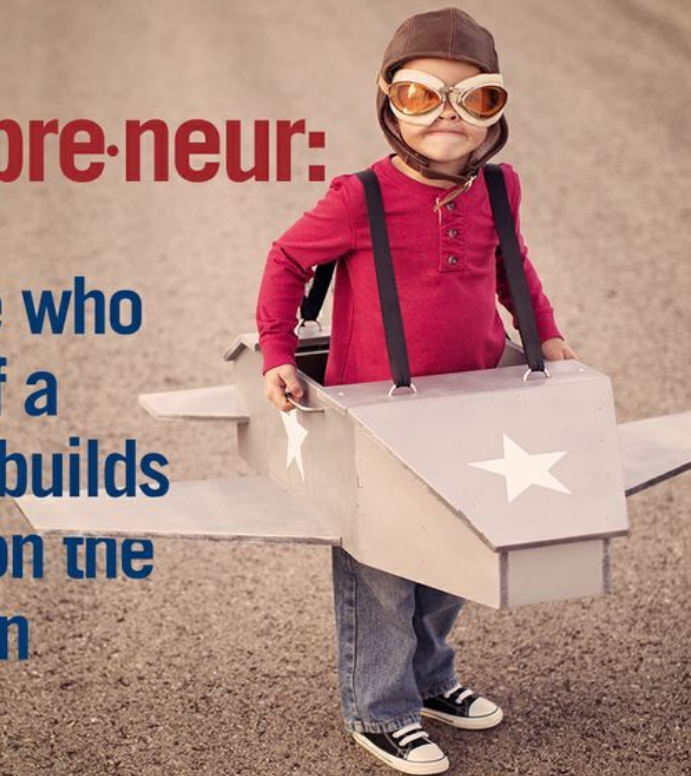

“Don’t ask kids what they want to be when they grow up but what problems do they want to solve. This changes the conversation from who do I want to work for, to **what do I need to learn** to be able to do that.”

## THE END

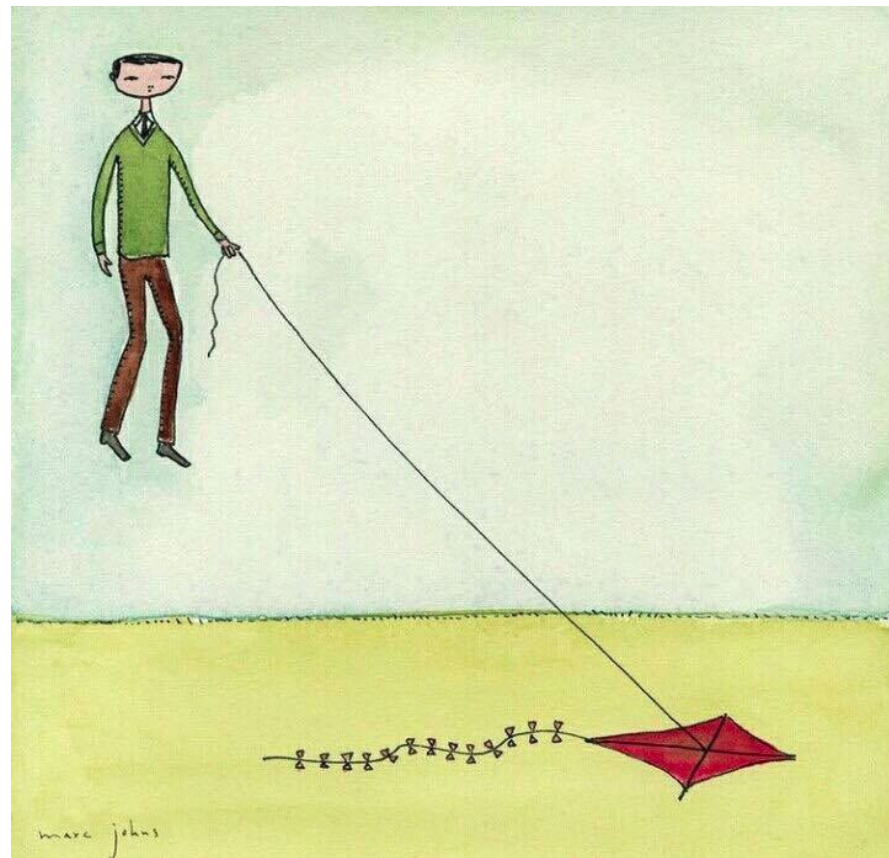

After less than 1 year of an unbelievable start-up story, today we had to "pull the plug", and file for **bankruptcy**.

Hereby I would like to thank everyone involved for believing in our vision and giving us a chance.

My sincerest apologies to those I dissapointed.
